

# Photo Story 3 Workshop

Naketa Ferguson  
CORE Education Ltd  
March 2008

Photo Story 3 can be downloaded from  
[www.microsoft.com](http://www.microsoft.com)

A Microsoft software tool that is FREE!!!!

Lets get started!!! – Click on 'Begin a new story'. The 'back' and 'next' buttons along the bottom will get you through the process.

## Step 1

---

---

---

---

---

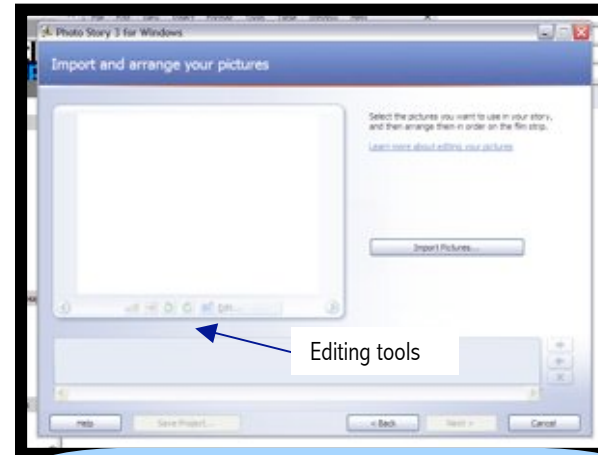

---

---

---

---

---

Let's work with some pictures. Click on 'Import Pictures'. You can also edit pictures that are imported using the tools underneath the preview window.

## Step 2

---

---

---

---

---

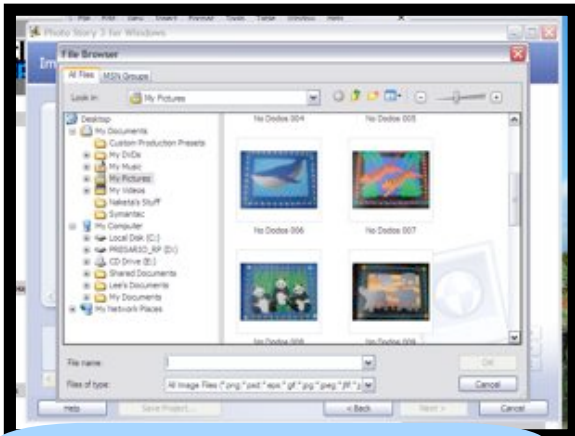

---

---

---

---

---

Find the pictures for your Photo Story. You can hold Ctrl+Click to select multiple pictures Ctrl+A to Select all photos in the folder. Click 'OK'.

## Step 3

---

---

---

---

---

---

---

---

---

---

To Add titles click on an image, type text in the text box. Use the functions along the top of the box to change colour, size, location and alignment.

## Step 4

---

---

---

---

---

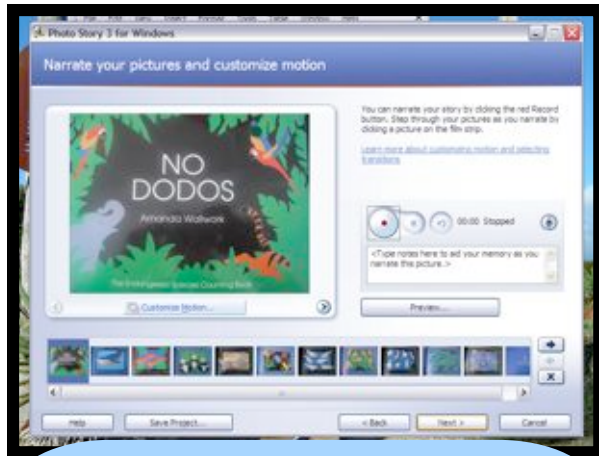

---

---

---

---

---

### Adding voice

Click on an image, to add voice to the image click on the 'red recording button'. You can preview to check if it sounds okay.

### Customizing motion

For each image you can customize the motion and add transitions. Each image must be saved after changes are made. Photo Story 3 will prompt you to do this.

## Step 5

---

---

---

---

---

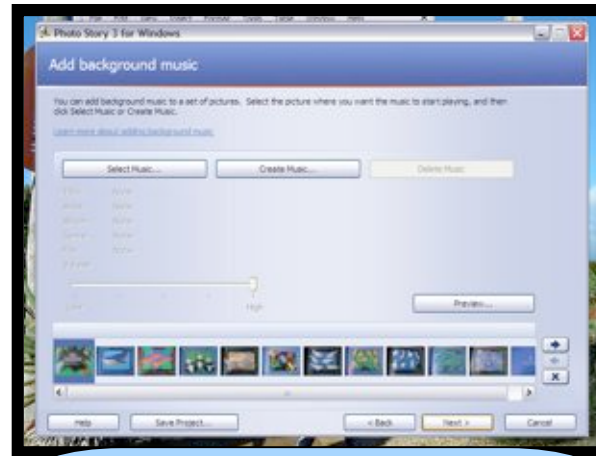

---

---

---

---

---

### Adding Music

You can add music to your photo story. Music already stored on your computer can be added here or you can use the Photo Story 3 presets to create your own music.

## Step 6

---

---

---

---

---

---

---

---

---

---

### Lets Save it!

There are a number of ways you can save your work.

As a .wmv file (this plays in Windows Media Player)

As an email (this function compresses the story so it is small enough to email and aligns with your default mail application)

You can also save the work as a 'project' that can be edited at a later date.

## Step 7

---

---

---

---

---

---

---

---

---

---

Photo Story 3 projects are automatically saved as a .wmv file (Windows Media Video). This then can be played in Windows Media Player.
